

## THE WATER SERVICE IN LAZIO REGION

“National and Regional Normative References:  
The implementation process”

*Mr. Giorgio Maggi (Environment Direction - Lazio Region)*

KICK-OFF MEETING 3-4 NOVEMBER 2011  
PARCO DELL'APPIA ANTICA  
IN ROME

## THE NORMATIVE

- Decree-law. 18 August 2000, n. 267 – art.113 and s.a.a.
- Law 14 September 2011, n. 148 - art. 4
- Decree-law. 3 April 2006, n. 152 and s.s.a.
- Financial law 2010 – L. 191/2009 art. 2, paragraph 186-bis and s.s.a.
- Law 42/2010 art. 1, paragraph 1-quinquies and s.s.a.

- Regional Law n.6 del 22.01.1996 and s.s.a.
- Regional Law n.26 of 09.07.1998
- Deliberation of the Regional Council n. 42 of 27 September 2007 – Approval of the Regional Water Protection Plan

## GENERAL PRINCIPLES

- All surface waters and groundwaters are public and are a resource that must be preserved and be used in accordance with criteria of solidarity.
- Uses of water are directed at water conservation and the preservation of the quality of the resource
- The use of water for human consumption is a priority.

## MAIN POINTS

- The management of water resources must be undertaken by a single entity for the collection of service / supply, sewage and water treatment.
- No more municipal administration, but transition to a superstructure (division into Optimal Territorial Areas - OTA)
- Identification of the Authority that oversees OTA
- Locating Manager of the Integrated water system.
- Cover the costs of the system through rate

## REGIONE LAZIO - STATUS OF IMPLEMENTATION OF INTEGRATED WATER SYSTEM.

O.T.A.	➡	EXPECTATIONS
O.T.A. 1-Viterbo	➡	TALETE COMPANY
O.T.A. 2-Roma	➡	ACEA COMPANY O.T.A. 2 S.p.A.
O.T.A. 3-Rieti	➡	NOT ASSIGNED
O.T.A.. 4-Latina	➡	ACQUALATINA COMPANY S.p.A.
O.T.A. 5-Frosinone	➡	COMPANY O.T.A.. 5 FROSINONE S.p.A.

## AREA PLAN

- Central document of the contractual relationship between manager and O.T.A. is the Area Plan, which also contains the investment plan and the tariff rate
- The determination of the tariff rate is based on the costs of maintenance and planned investments, and it has to ensure the full economic coverage of the service

## THE TARIFF

The tariff, collected directly by the operator, must cover all costs of the service:

- collecting water: water quality must be guaranteed within defined standards;
- distribution: the losses must be reduced (physical or administrative) for the efficiency of the system;
- depuration: throughout the area served by the distribution must be connected to a sewage treatment plant, which must guarantee the quality of re-entry
